## K9 UNIT

Although the K9 Unit was only established in the beginning of year 2004, it was actually led by an experience kennel manager. Starting with only 2 rotweiller as guard dogs, at present the PIM K9 Unit has different breeds such as : German Sheppard, Golden Retrievers, and Labradors. These dogs were trained as guard dogs, patrol companions, general tracking as well as special tracking for drugs and bomb/explosive material.

In the future the K9 unit will be further expanded in terms of numbers and variety of dogs as well as the various skills required for an ever increasing need for K9. At present we owned a training center with their own facilities supported by a medical team, a set of handlers and experience trainers. It is supported further with their own mobile unit.

With the following motto: Loyal, Tough and Reliable, the K9 unit is now the main security tool owned by PIM. In a normal situation the K9 unit becomes part of the patrol Guard Service response team. The K9 unit is on duty 24 hours a day seven days a week to serve anybody's need and request for security protection.
